

ACCESS/PARKING:

- Old Sib Road (1-2 cars), on the west side of the road. [GPS Address: 405 Old Sib Road]

DIFFICULTY: Moderate, a few steep sections. 45 minutes.

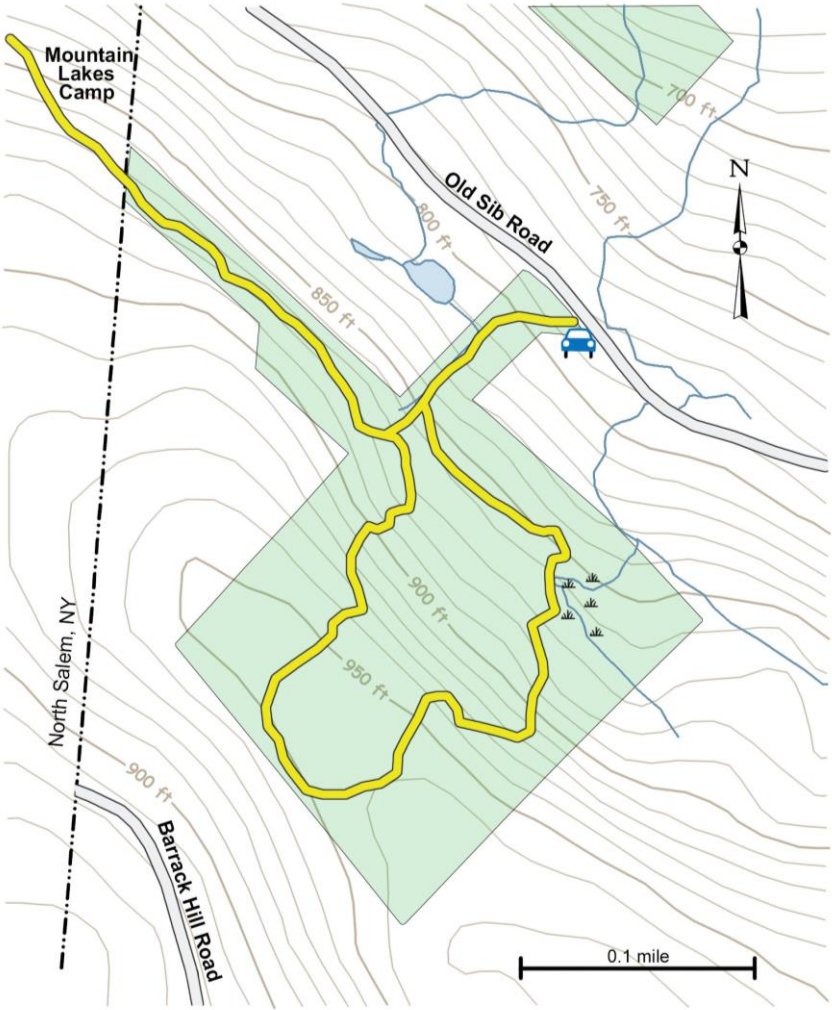

FEATURES: There are two trails, both marked with yellow blazes. One is a loop trail and the other links to the Sal J. Prezioso Mountain Lakes Park in North Salem, NY.

Both trails start up a steep hill along a utility right-of-way past rocky outcrops. The loop trail exits this trail to the left, following a rocky spine past a woodland wetland and then up to the top of a ridge and through a mature forest. It comes down on the opposite side of the wetland and back to the right-of-way.

The other trail leaves the right-of-way a little higher and to the right. It travels through a significant stand of mountain laurel and ends at the open-space trail of the Mountain Lakes trail system. A map of this trail system in New York can be downloaded from <https://parks.westchestergov.com/>.

HISTORY: The property was purchased in 2006 using funds from the Open Space Fund of the Conservation Commission.
